

# Mira / 180

Compact mobile lifter

## Primary application

Home care  
Nursing homes  
Hospitals

Mira is a new, compact, general purpose mobile lifter from Ergolet. The elegant twin mast design gives increased solidity and as with all Ergolet products, the Mira is characterised by its elegant Scandinavian design and simple functionality.

Mira has been designed to easily cope with most lifting situations. The Linak electronics incorporate an on board charger with emergency & manual lowering functions. The design and shape of the chassis and lifting arm give an exceptional lift range (42-177cm - 17-70").

The compact dimensions and high safe working load (180 kg - 28.5 st) ensure that Mira is suitable for home care, care homes and hospital use. The spreader bar is equipped with the unique Ergolet hook system.

## Key standard functions

Powered base  
Built in charger  
Emergency stop  
Electric and manual emergency lower

## Accessories

Comprehensive range of ERGO slings  
Spreader bars  
Weigh scale

Patented Ergolet sling hooks on the spreader bar. Sling attachment: a minimum of downward pressure locks the sling hook; pull upwards to unlock sling hook.

Simple management of emergency stop and lowering and battery charge. Connect directly to wall socket for charging.

Powered leg spreading (V-shape) of wheel base for better access and stability.

The compact mobile lift Mira/180 with user. Lifting arm with large lifting range, 42-177 cm (17-70")

Version	Item number
Mira 180 mobile lift	010-01910
Mira 180 mobile lift - in UK	010-01911UK

## TECHNICAL SPECIFICATION
